REVIEW OF CITY WATER AND SEWER BILLS DUE TO FREEZING WATER  
CONDITIONS

Cadwell presented the data from the raw meter reads for the first quarter of 2014. There was actually 800,000 gallons less water used first quarter of this year as compared to last year. There are approximately 130 accounts with usage more than 4000 gallons greater than the previous billing cycle.

Schoenborn presented copies of a letter from Josh and Becky Haagenson and suggested that people who are getting water via hoses from another source are not getting the same service as other residents.

Schouveiller made a motion to credit accounts with overages greater than 4000 additional gallons, to average accounts that are providing additional water and to bill the minimum to accounts getting water from another source. The motion was seconded by Schoenborn and the motion carried 3-0.
